As a small business owner in Sierra County I can tell you that this mine needs to happen now. Jobs are few and far between, at this time I cannot keep a crew working. I live in Hillsboro and my son is the fourth generation to live here. We live in the Hillsboro mining district, mining has been a part of this area since the beginning and a part of our economy. We are blessed with a resource that lies in a old volcano, that can help a number of family's afford a living. Please let the mine get started so our family's have more of an opportunity than working at Wal-mart, because that is about it.

Thank you,  
Bruce Cosper
